The enclosed CD-ROM contains documents originally composed in Corel Word Perfect 8 or 11 or 12. They have been run through a Conversion Software and saved as a MicroSoft Word Document.

Even with the Conversion Software the formatting and pagination between Word Perfect and MicroSoft Word are not always compatible. Although all of the substance and text is intact the pages will not always appear the same as in the Word Perfect file (the pages in your Codified Ordinances Book). Usually it is the margins and tab settings that are affected. Also charts and graphics may not always convert properly.

Always refer to the printed pages in the Code Book as the final authority.
