**New Schedule for Curbside Brush Collection in the City of Milford**

Effective August 4, 2009 Milford's Service Department is changing its curbside brush collection schedule. This service will now be offered bi-weekly. City crews will continue to collect brush at no cost to residents on the first and third Wednesday of each month August through October.

We are working smarter in our efforts to be good stewards. This new schedule more efficiently utilizes city personnel and allows staff to dedicate their time to other needed projects.

Those wishing to take advantage of the City's brush collection are reminded to have their loose branches bundled and curbside before Wednesday morning. Stack brush smaller than six inches in diameter and shorter than eight feet long – with the cut ends facing the street. Brush must not interfere with foot or vehicle traffic or with the flow of water to the storm drains.

When a tree service or landscape company is hired to cut down trees or clear areas they are solely responsible for removal of pieces larger than six inches and eight feet long.

For additional information regarding Milford's brush collection please call 513-831-4192.
