

## Tree Pruning – Early 2009 City of Milford, Ohio

Duke Energy will begin pruning trees on January 5, 2009 in Milford. The first pruning area will include Duke Energy's Edgecombe substation through the wooded area to Happy Hollow and continue to follow the electrical line on State Route 131 past Stoneridge Subdivision. Also, beginning at corner of Route 50 and State Route 131 tree pruning will continue through to Klondike Road. This is routine pruning usually completed every four years. We have been notified that ABC Professional Tree Services Inc., a subcontractor for Duke Energy, will be pruning the trees throughout the City.

Each business or resident will receive an informational door hanger if a tree is designated be pruned from the wires on their property. Residents are directed to contact Duke Energy's Steve James at 513-256-1296 with any questions or concerns.
